
Blount's Busy Bee Bulletin

Gladstone Elementary 

Founders Day

A big congratulations to two of our classmates for participating in Gladstone's Variety Show! Colin did a super rendition of "Merrily We Roll Along." Bravo! Maeve performed a gymnastics routine to "Sing, Sing, Sing" that had us glued to our seats! So proud of them for being courageous and brave!

2022

Special points of interest:

- *New Friend!*
- *Founders Day*
- *Everything Snowmen*
- *Dissolving Candy*
- *Raffle*

Extra! Extra!

Our friend and classmate, Abel, moved out toward Temecula. Although we are sad that he is no longer part of our class, we are happy that he gets to spend more time with his family.

This week, however, another new friend joined our little hive! Let's extend a big Gladstone welcome to Evelyn! We are so happy she is part of our class. :)

I Learned All About Life From a Snowman. . .

- It's okay if you're a little bottom heavy.
- Hold your ground, even when the heat is on.
- Wearing white is always appropriate.
- Winter is the best of the four seasons.
- It takes a few extra rolls to make a good midsection.
- There's nothing better than a foul weather friend.
- The key to life is to be a jolly, happy soul.
- We're all made up of mostly water.
- You know you've made it when they write a song about you.
- Accessorize! Accessorize! Accessorize!
- Don't get too much sun.
- It's fun to hang out in your front yard.
- Always put your best foot forward.
- There's no stopping you once you're on a roll.

Snowman Projects Summary

- *Mystery Math: Multiplication
- *Glyph: Data Analysis (Range, Mode, Median)
- *Snowman Math: Word Problems
- *Winter Wonderland: Foreground, Background
- *Lost/: Use of Adjectives

- *Snow Globes: Grammar Review
- *Snowman Writing: Sequencing, Use of Transitions, Sentence Structure

AR Update!

Our new total for the number of words read for the year:

4,808,461

Oh, happy day! :)

Candy Heart Experiment: Dissolving Candy

We put a candy heart in each of the following liquids: hot water, apple juice, 7 Up, and cold water. The class hypothesized first and there was a tie between hot water and 7 Up dissolving the candy heart first. We took the experiment through the scientific method and found that hot water did indeed dissolve the candy first. Hot water has the ability to melt foods quickly. Even an hour later, the candy hearts in the other liquids were still not completely dissolved.

Newsletter Raffle:

Week of February 7-11, 2022

How many hearts can you find in this week's newsletter?

When you're sure, come see me at **recess**.

Hint: You may want to go online to make
sure you've counted all of them.
